

**Second Day 31 March 2009**  
**Active poster Session: 10:45-12:15 stand 3**  
**Chair: D. Gross, Y. Levy**

Page	Title
68	<b>The molecular basis for apoptosis and cell-cycle delay following ionizing radiation of prostate cancer cells pretreated with 1,25(OH)<sub>2</sub>D<sub>3</sub> and sodium valporate</b> Vladimir Gavrilov Yaron Leibovich. Samuel Ariad. Konstantin Lavrenkov, Shraga Shany
69	<b>The beta-cell KATP channel is required for replicative decisions</b> Rachel Schyr, Sharona Tornovsky, Shay Porat, Mozhgan Heyman, Benjamin Glaser, Yuval Dor, Frances M. Ashcroft
70	<b>Identification of insulin-like growth factor-I receptor (IGF-IR) gene promoter-binding proteins in estrogen receptor (ER)-positive and ER-depleted breast cancer cells.</b> Rive Sarfstein, Haim Werner
71	<b>Plant polyphenols enhance all-trans retinoic acid-induced maturation and growth inhibition in acute promyelocytic leukemia (APL) cells.</b> Rina Wassermann, Victoria Rossova, Michael Danilenko
72	<b>Human Medullary Carcinoma cell line TT Growth is Estrogen-Sensitive and t-Boc Derivatives of Carboxy- Alkyl Isoflavones Can Serve As Novel Anti-Cancer Agents for TT cells in vitro.</b> Yona Greenman, Meital Grafi-Cohen, Sara Katzburg, Orly Sharon, ETTY Knoll, Zaki Kraiem, Fortuna Kohen, Naftali Stern, Dalia Somjen
73	<b>Role of the antioxidant effect and VDR transcription system in the enhancement of vitamin D-induced differentiation of leukemic cells by plant polyphenols</b> Victoria Rossova, Marina Khanin, Stella Pesakhov, Ofer Shpilberg, Itai Levi, Ory Rouvio, Michael Danilenko
74	<b>Targeting of the IGF-IR as a potential therapeutic strategy in endometrial cancer</b> Zohar Attias, Ilan Bruchim, Haim Werner
75	<b>Can auxology, IGF-1, IGFBP-3, MRI and genetic tests replace GH stimulation tests for the diagnosis of GH deficiency?</b> Ora Hess, Yasir Hujeriat, Osnat Admoni, Stavit Allon-Shalev, Yardena Tenenbaum-Rakover
76	<b>Effect of chronic stress and antidepressant therapy on IGF-1 and BDNF systems in the brain, and on cognitive performance of rats</b> Michal Taler, Irit Gil-Ad, Maya First, Nurit Novak, Abraham Weizman
77	<b>The role of Urocortin peptides in regulating the central stress response: Evidence from a novel Urocortin triple knockout mouse model</b> Michael Tsoory, Adi Neufeld, Dimitry Getselter, Alon Chen
78	<b>Perifornical Urocortin 3 mediates the link between stress-induced mood and energy homeostasis.</b> Yael Kuperman, Orna Issler, Limor Regev, Ifat Musseri, Alon Chen
79	<b>Amygdalar CRF knockdown attenuates stress-induced anxiety</b> Limor Regev, Alon Chen
80	<b>Three uneventful pregnancies in one patient, with ectopic Corticotropin-Secreting, SSTR2 Positive bronchial Carcinoid, treated with Octreotide LAR throughout all trimesters.</b> Deeb Daoud, Adnan Zaina, Michal Armoni, Eddy Karnieli, Ali Yehia, George Kontogeorgos
