
Research for a Future without Diabetes

The German Center for Diabetes Research (DZD) is a national network comprised of experts in the field of diabetes research that connects basic research, translational research and clinical applications.

- Helmholtz Zentrum München
- German Diabetes Center in Düsseldorf
- German Institute of Human Nutrition in Potsdam-Rehbrücke
- University of Dresden
- University of Tübingen

Associated partners at the Universities in Leipzig, Munich, Heidelberg, Cologne and Lübeck.

The goal of the DZD is to find answers to unsolved questions in diabetes research via an innovative, integrative research approach and to make a major contribution to improving the prevention, diagnosis, and therapy of diabetes mellitus.

Program

The DZD is inviting young scientists to join the 3rd DZD Diabetes Research School. They will discuss current questions of diabetes research with renowned experts and selected participants will get the chance to present their own work in a short talk.

- **Barbara Cannon**, Sweden
Brown fat and obesity
- **Leif Groop**, Sweden
Can genetics of diabetes be translated into the clinic?
- **Patrik Rorsman**, United Kingdom
Glucagon secretion - a sadly neglected player in diabetes research?
- **Ulf Smith**, Sweden
The role of adipose tissue in insulin resistance
- **Claes Wollheim**, Switzerland
The islet beta cell is an insulin factory, whose output is dysregulated in type 2 diabetes

Special talk: Diabetes innovation in industry

- **Philip Larsen**, Sanofi Germany
Innovation for the diabetes patient: the end of drug discovery as we know it
