

IES 2015 Annual Meeting – Preliminary Program
April 14 – 15, 2015, Leonardo Hotel Ashkelon

Tuesday, April 14 th 2015			
07:30-08:30	Registration, Exhibition Visit, Gathering and Refreshments		
08:30-10:15	Oral Presentations (3 Parallel Sessions)		
	Diabetes Mellitus	Neuroendocrinology, Adrenal, HPA	Bone
10:15-10:45	Coffee Break, Exhibition Visit and Refreshments		
10:45-11:00	Opening Remarks: Eddy Karnieli and Yossi Orly		
11:00- 11:45	Plenary lecture 1: Clifford Rosen “What is New between Bone and Fat?”		
11:45-13:15	Guided Poster Session		
13:15-14:15	Lunch Break and Exhibition Visit		
14:15-15:45	Symposium 1-3 (Parallel Sessions)		
Symposium 1: Bone Metabolism			
Clifford Rosen: “Metabolic Demands in the Bone Marrow- Why do we care?”			
Shoshana Yakar: “The Roles of the GH/IGF-1 Axis in Bone Metabolism during Development and Aging”			
Rivka Dresner-Pollak: “The Role of the Anti-aging Gene Sirtuin1 in Osteoporosis: From Mice to Women”			
Efrat Monsonego: “Nutritional Aspects of Skeletal Development”			
Symposium 2: Genetic Testing in Endocrine Tumors: Indications and Clinical Implications Regarding Prognosis and Treatment			
Ilan Shimon: "Pituitary Tumors"			
Sagit Zolotov: "Differentiated Thyroid Carcinoma"			
Etty Osher: "Pheochromocytoma and Paraganglioma"			
Symposium 3: Diabetes			
Gil Leibowitz: “Autophagy is a Major Regulator of Insulin Homeostasis in the Beta-Cell”			
Yehiel Zick: “Novel Regulators of ER Stress and the Unfolded Protein Response in Pancreatic Beta Cells”			
15:45-16:00	Coffee Break and Exhibition Visit		
16:00-17:30	Symposium 4-5 (Parallel Sessions)		
Symposium 4: Cutting Edge Molecular Technologies-Toward Personalized Medicine			
Noam Shomron: “Reading DNA (Whole Exome Sequencing) and RNA (Expression and Regulation) for Personalized Medicine ”			
Tamar Geiger: "Application of Proteomics Technology to Cancer Research, from Diagnostics to Personalized Therapy"			
Symposium 5: Disorders of Sex Development (DSD)			
Kenneth McElreavey: Disorders of Sex Development			
Liat de Vries: “A Child with 46XY DSD – Should Sex Reassignment be Considered?”			
Ghadir Assad-Elias: “Persistent Mullerian Duct Syndrome: Clinical Dilemma”			
Anat Segev-Becker and Sarah Meisler: “Uterine Removal in Mixed Gonadal Dysgenesis / XY Partial Gonadal Dysgenesis, Raised as Males: Should we Leave it for Them to Decide?”			
17:30-18:30	Meet the Professor / Expert (2 Parallel Sessions):		
Naomi Weintrob: “Congenital Adrenal Hyperplasia: from Conception to Adulthood”		Silvia Monticone: "Clinical Approach to Primary Hyperaldosteronism (from Screening Tests to AVS)"	

IES 2015 Annual Meeting – Preliminary Program
April 14 – 15, 2015, Leonardo Hotel Ashkelon

Wednesday, April 15th 2015			
07:30-08:30	Registration, Exhibition Visit, Gathering and Refreshments		
08:30-10:15	Oral presentations (3 Parallel Sessions)		
	Growth Factors, Hormones and Cancer	Reproduction	Thyroid
10:15-10:45	Coffee Break, Exhibition Visit and Refreshments		
10:45-12:15	Symposium 6 – 8 (3 Parallel Sessions)		
Symposium 6: Parathyroid Disorders			
Iris Vered: "What is New in the New Guidelines for Primary Hyperparathyroidism?"			
Michal Mekel: "Imaging Detection of Parathyroid Adenomas"			
Auryan Szalat : "Disorders of the Calcium Sensing Receptor"			
Symposium 7: Hot Topics in Endocrine Research			
Noam Sobel: "Pheromones are Hormones too..."			
Oren Froy: "Effect of Meal Timing on Daily Metabolic Rhythms and Body Weight"			
Limor Landsman: "The Role of the Islet Micro-environment in Beta-cell Function"			
Symposium 8: Ovarian Failure and Function			
David Zangen: "XX DSD Gonadal Dysgenesis- New Genes and Mechanisms in Human Ovarian Development and Failure"			
Talia Eldar-Geva: " Can we Treat Primary Ovarian Failure ?"			
Nava Dekel: "Ovarian dendritic cells act as a double-edged pro-ovulatory and anti-inflammatory sword"			
12:15-13:00	Plenary Lecture 2 : Silvia Monticone Recent Advances in the Pathogenesis of Primary Aldosteronism		
13:00- 14:00	Lunch Break, Exhibition Visit and Refreshments		
14:00 -14:25	Plenary Lecture 3: Erol Cerasi "Half a Century and a Bit in Diabetes"		
14:25-16:00	Prizes session and General Assembly Lindner Prize Lecture (20 min) Chowers Prize Lecture (15 min) Prizes for Best Clinical/Basic Abstracts (10 min) IES Members Assembly Meeting (45 min)		
16:00-16:15	Coffee Break
