

The 1st International School for Multiple Endocrine-Neoplasia Syndromes

January 19th 2020, Autoimmune Center Conference Hall, Sheba MC

Meeting co-chairs - Dr Amit Tirosh, Prof Frederic Sebag

9:00	Opening remarks Dr Tirosh/Prof Sebag
9:10-10:10	Succinate dehydrogenase (SDH)-related syndromes Chairs: Dr Gadi Shlomai, Prof David Taïeb
9:10-9:25	SDH mutations and PPGL - genotype-phenotype relationship Dr Gadi Shlomai, Endocrine Institute, Sheba MC, Israel
9:25-9:40	Functional Imaging in SDHx syndromes Dr Liran Domachevsky, Nuclear Medicine Institute, Sheba MC, Israel
9:40-9:55	Surgery in SDHx syndromes Prof Frederic Sebag, Department of Endocrine and Metabolic Surgery, Aix-Marseille univ, La Conception Hospital, Marseille, France
9:55-10:10	PRRT in SDHx syndromes Dr Simona Glasberg, NET Unit, ENETS Center Of Excellence, Hadassah MC, Israel
10:10-10:30	Short coffee break
10:30-11:15	Multiple Endocrine Neoplasia Type 1 Chairs: Dr Etty Osher, Dr Merav Fraenkel
10:30-10:45	Parathyroid – Surgical approach in patients with MEN1 Dr Michal Mekel, Endocrine Surgery Service, Rambam MC, Israel
10:45-11:00	PNET - Planning patient surveillance Dr Rachel van Leeuwen, Dutch MEN Study Group, UMC Utrecht, The Netherlands
11:00-11:15	Pituitary – Clinical manifestations and management. Prof Frederic Castinetti, Department of Endocrinology, Aix-Marseille univ, Inserm, La Conception Hospital, Marseille, France
11:15-12:00	Keynote lecture – Molecular imaging of MEN syndromes, NF1 and VHL Prof David Taïeb, Department of Nuclear medicine, Aix-Marseille univ, Cerimed, Inserm, La Timone Hospital, Marseille, France Chair: Dr Liran Domachevsky, Nuclear Medicine Institute, Sheba MC, Israel
12:00-13:00	Lunch

13:00-13:45	Multiple Endocrine Neoplasia Type 2 Chairs: Dr Orit Twitto, Dr Amit Tirosh
13:00-13:15	MEN2 Genetics Prof Frederic Castinetti, Department of Endocrinology, Aix-Marseille univ, Inserm, La Conception Hospital, Marseille, France
13:15-13:30	Surgery for Pheo & MTC Prof Frederic Sebag, Department of Endocrine and Metabolic Surgery, Aix-Marseille univ, La Conception Hospital, Marseille, France
13:30-13:45	MTC surveillance in patients with MEN2 syndrome Dr Eyal Robenshtok, Endocrine Institute, Rabin MC, Israel
13:45-14:05	Short coffee break
14:05-15:30	von Hippel-Lindau Disease Chairs: Dr Zohar Dotan, Dr Didi Fabian
14:05-14:15	The VHL Alliance Perspective Dr Ilene Sussman, The VHL Alliance, Boston, Massachusetts
14:15-14:30	Targeted interventions for VHL-related RCC Dr Eric Jonasch, Genitourinary Medical Oncology, MD Anderson, Houston, Texas
14:30-14:45	Surveillance of VHL-related pancreatic neuroendocrine tumors Dr Amit Tirosh, NET Service, Sheba MC, Israel
14:45-15:00	Surgical approach for pheo/PPGL and PNET in VHL Prof Haggi Mazeh, Endocrine and General Surgery, Hadassah MC, Israel
15:00-15:15	Management of cerebellar hemangioblastomas Dr Zion Zibli, Neurosurgery, Sheba MC, Israel
15:15-15:30	Diagnosis and Management of Retinal Hemangioblastomas Dr Anthony Daniels, Vanderbilt University Medical Center, Nashville, Tennessee
15:30-16:15	Keynote lecture – Identifying genes for endocrine (and other) tumor syndromes: examples from a clinician to clinicians. Dr Constantine A. Stratakis, NICHD, NIH, Bethesda, Maryland Chair: Prof Eitan Friedman, Oncogenetics Unit, Sheba MC, Israel
16:15	Closing remarks Prof Sebag /Dr Tirosh
